

## THE NEWS.

ANTIOCH, ILLINOIS.

A. REPUBLICAN NEWSPAPER.

PUBLISHED WEEKLY BY  
A. B. JOHNSON, - Publisher  
By Mail, One Dollar Per Year, in Advance.

### EDITORIAL NOTES.

Employees of the state departments and state institutions must cease accepting railroad passes. While no order to this effect has been issued, it is stated that Governor Deneen has made it clear that he expects employees to pay as they go and be independent of railroad influence.

Notice is to be served on the Chicago Record-Herald that unless it publishes a retraction of statements appearing in connection with an article on "Traffic in Postoffices in Edgar County," which article created quite a stir several days ago, United States Marshal Hitch of Paris will institute a suit for \$150,000 damages against the paper.

The Waukegan Weekly Sun of last week said, that upon the recent visit of County Clerk Hendee to Antioch he called upon Senator A. N. Tiffany at his place of business and was treated with a case of "cold feet." We think the Sun has another guess coming, as Senator Tiffany was not at his office at the time Mr. Hendee called neither was he in town upon that day.

### The Passing of Youth.

Youth is an invitation to a mask ball, which we all accept. We mingle with the dancers until our fancy fixes upon a domino and a pair of tripping feet with which to tread a measure. We become weary of the dance and go out into the moonlight to "sit" it out. Then we unmask and, presto, the ball is over and youth is dead.—Portland Oregonian.

### Own Carriages in Common.

A curious custom exists in Genoa. Many of the well-to-do people, as well as those in moderate circumstances, do not own either horses or carriages. They own only an interest in them. Four or five or half a dozen great families club together and buy a carriage and horses; then they arrange among themselves the days the different families will use it.

### A Night Alarm.

Worse than an alarm of fire at night is the brass cough of croup, which sounds like the children's death knell and it means death unless something is done quickly. Foley's Honey and Tar never fails to give instant relief and quickly cures the worst forms of croup. Mrs. P. L. Cordier, of Mannington, Ky., writes: "My three year old girl had a severe case of croup; the doctor said she could not live. I got a bottle of Foley's Honey and Tar, the first dose gave quick relief and saved her life." Refuse substitutes. Sold by J. H. Swan.

### The Reason.

"Why does one want a study in which to be alone at times with his books?" you ask. For the reason that he does not care to have people present at the making of his mental toilet any more than at the making of the physical one.—New Orleans Times-Democrat.

### A Hint to Husbands.

A woman simply cannot harbor bad temper when she knows her dress to be a success. If only husbands realized this, the dressmaker's bill might be heavier, but serenely would reign in the household, and many would gladly pay the price.

Kidney complaint kills more people than any other disease. This is due to the disease being so insidious that it gets a good hold on the system before it is recognized. Foley's Kidney Cure will prevent the development of fatal disease if taken in time. Sold by J. H. Swan.

### First Painter of Record.

The oldest known picture was "A Battle of the Magyars," by Bularchus, who is the earliest painter of whom there is any record. This picture was purchased by Candaules, King of Lydia, about 716 B. C., for either its weight in gold or for as much gold coin as would cover it.

### Reads Like Prize Fight.

From an account of the Doncaster (England) Art club's annual exhibition in the Doncaster Gazette: "Miss also goes in for portraiture. In hitting off her father's head her intentions are good, but the execution lacks very much in artistic finish."

Foley's Honey and Tar is best for croup and whooping cough, contains no opiates, and cures quickly. Careful mothers keep it in the house. Sold by J. H. Swan.

### Mutual Tolerance.

Men and women get along surprisingly well, considering how much the men know about the women, and how much the women suspect about the men.—Athenian Globe.

### All Meat for Parisians.

A street sign that amazes American visitors in Paris reads: "Butchery of Horse, Ass and Mule a Specialty."

Foley's Honey and Tar cures the cough caused by attacks of la grippe. It heals the lungs. Sold by J. H. Swan.

### Auction Sales.

The undersigned having decided to quit farming, will sell at public auction on what was formerly known as the George Leach farm, 2 miles north of Lake Villa and 2 1/2 south of Antioch on Thursday, Feb. 1 '06 commencing at 1 o'clock p. m. the following property to-wit:

Usual terms. R. C. Jones, proprietor. Chase Webb Auctioneer.

The undersigned being about to quit farming, will sell at public auction on the Riley farm, 2 mile northeast of Millburn and four miles west of Wadsworth on Wednesday Feb. 7 '06, commencing at 10:00 o'clock a. m. the following property to-wit:

17 head of cattle, 10 cows, 3 new milkers balance coming in soon, 1 two-year old bull 2 heifers, 4 last spring calves, 8 fat hogs, 5 shoats, 60 chickens, 4 turkeys, 6 head of horses, 1 bay mare, six years old, 1 sorrel mare, 7 years old, 1 gelding 11 years old, 1 brood mare, 1 Clyde colt two years old, 1 last spring colt, 1 truck wagon, 1 lumber wagon, 1 buck board, single buggy, Deering oat binder, Deering corn harvester, heating stove, extension table, lounge, Deering mower, hay rake, 1 2-horse cultivator, 1 1-horse cultivator, 2 pulverizers, 1 seeder, 1 set drags, 1 feed cutter and belting, 1 feed grinder, 1 bob sleigh, 4 milk cans, 2 sets double harness, 1 single harness, cauldron kettle, water tank, grind stone, fanning mill, hay rack, 2 stubble plows, sod plow, 1 1-horse hoe, pig troughs 20 tons tame hay in stack, 2 stacks millet, 300 bushels corn in crib, a quantity of corn and cornstalks in stacks, kitchen chairs, parlor set, and other articles to numerous to mention. Free lunch at noon. Geo. Duncan, proprietor, Geo. Vogel, auctioneer.

Just a little Kodol after meals will relieve that fulness, belching, gas on stomach and all other symptoms of indigestion. Kodol digests what you eat, and enables the stomach and digestive organs to perform their functions naturally. Sold by J. H. Swan.

### Japs Use American Planos.

A report from Yokohama is to the effect that there is a growing demand in Japan for pianos, which are chiefly supplied by the United States. Great Britain and Germany, American pianos are now to be found in the homes of many wealthy Japanese in all the larger cities of the Mikado's empire.

### First Church Bells.

Bells of large size were first impressed into the service of the church about the year 400, by Paulinus, Bishop of Nola, in Campania, and hence "campana" the Latin name of bell. Another century and a half elapsed before they were adopted by the church of France.

## For Thin Babies

Fat is of great account to a baby; that is why babies are fat. If your baby is scrawny, Scott's Emulsion is what he wants. The healthy baby stores as fat what it does not need immediately for bone and muscle. Fat babies are happy; they do not cry; they are rich; their fat is laid up for time of need. They are happy because they are comfortable. The fat surrounds their little nerves and cushions them. When they are scrawny those nerves are hurt at every ungentle touch. They delight in Scott's Emulsion. It is as sweet as wholesome to them.

Send for free sample.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

## Stubborn Coughs and Colds CURED BY FOLEY'S HONEY AND TAR

Obstinate, racking Coughs that make your head ache, your throat and lungs sore and inflamed, that rob you of sleep until your system becomes so run down that you are in grave danger of Pneumonia or Consumption, are quickly cured by **Foley's Honey and Tar.**

### FOLEY'S HONEY AND TAR

soothes and heals the inflamed air passages, allays the feverish conditions, stops the cough and prevents serious results from a cold.

### FOLEY'S HONEY AND TAR

is the only prominent cough medicine on the market that does not contain opiates or harmful drugs of any kind and on this account is safest for children.

It is unexcelled for Croup and Whooping Cough and will quickly cure the racking cough which follows measles and leaves so many children with weak lungs unless properly treated.

Remember the name — **Foley's Honey and Tar**—and refuse substitutes that cost you the same as the genuine. Do not take chances with some unknown preparation.

### Consumption Threatened.

C. Unger, 211 Maple St., Champlain, Ill., writes: "I was troubled with a hacking cough for a year and I thought I had consumption. I tried a great many remedies and I was under the care of physicians for several months. I used one bottle of **Foley's Honey and Tar**; it cured me, and I have not been troubled since."

Three sizes—25c, 50c, \$1.00.  
The 50 cent size contains two and one-half times as much as the small size and the \$1.00 bottle almost six times as much.

**SOLD AND RECOMMENDED BY**  
**JAMES H. SWAN**

### A Thousand Dollars Thrown Away.

Mr. W. W. Baker, of Plainview, Neb., writes: "My wife had lung trouble for over fifteen years. We tried a number of doctors and spent over a thousand dollars without any relief. She was very low and I lost all hope, when a friend suggested trying **Foley's Honey and Tar**, which I did; and thanks be to this great remedy, it saved her life. She is stronger and enjoys better health than she has ever known in ten years. We shall never be without **Foley's Honey and Tar** and would ask afflicted to try it." Sold by J. H. Swan.

### Expressions of Dead Soldiers.

Army surgeons state that the expressions on the faces of soldiers killed in battle indicate the cause of death. Those who have perished from sword wounds have a look of repose, while there is an expression of pain on the countenance of those slain by bullets.

### Paint Keeps Out Bacilli.

Oil paints have a marked different effect upon various bacilli of disease, as tests made in Paris have shown. The germs of tuberculosis, especially, are much affected by paints. They do not thrive or live on a painted surface as they do where there is no paint to cover wood or metal.

Winter coughs are apt to result in consumption if neglected. They can be soon broken up by using **Foley's Honey and Tar.** Sold by J. H. Swan.

### Spanish Drug Store Regulation.

In Spain drug stores are permitted to sell drugs all day on Sunday, but to deal in perfumery on that day is unlawful. Candy cannot lawfully be sold later than 11 o'clock in the forenoon unless no clerks or assistants are employed. Proprietors may keep open all day if they do the work themselves.

### New Version of Biblical Truth.

A Sunday school boy recently gave this account of the prophet Elijah: "Elijah, the prophet, was carried to heaven by a whirlwind, and the children stood up and cried, 'Go up, thou baldhead! Go up, thou baldhead!' and before he went up he divided the Red sea."

**HALL'S VEGETABLE SICILIAN Hair Renewer**  
Why not stop this falling of your hair? At this rate you will soon be without any hair! Just remember that Hall's Hair Renewer stops falling hair, and makes hair grow.

### A Healing Gospel.

The Rev. J. C. Warren, pastor of Sharon Baptist Church, Belair, Ga., says of **Electric Bitters**: "It's a Godsend to mankind. It cured me of lame back, stiff joints and complete physical collapse. I was so weak it took me half an hour to walk a mile. Two bottles of **Electric Bitters** have made me so strong that I have just walked three miles in 50 minutes and feel like walking three more. It's made a new man of me." The greatest remedy for weakness and all Stomach, Liver and Kidney complaints. Sold under guarantee at J. H. Swan's drug store. Price 50c.

### Cast a Shadow on London.

"The sky-scraper," says the London Express, "is casting a long black shadow over London, and its native friends declare that before long the buildings of London will be as lofty as those of New York. They may be right. They have forced our hands in the matter of underground electric transit. What they have done below the earth they may be able to accomplish above it."

### Substitute for the Saloon.

A man, who after being addicted to drink, had taken the pledge, was persuaded to attend classes in "first aid to the injured." A clergyman interested in the ex-drunkard's reform afterward called on the man's wife and asked her how her husband was. "He's a changed man, sir," said the wife. "Instead of spending his evenings in the saloon he stays at home every night and bandages the cat."

All old time cough syrups bind the bowels. This is wrong. A new idea was advanced two years ago in Kennedy's Laxative Honey and Tar. This remedy acts on the mucous membranes of the throat and lungs and loosens the bowels at the same time. It expels all cold from the system. It clears the throat, strengthens the mucous membranes, relieves coughs, colds, croup, whooping cough, etc. Sold by J. H. Swan.

### English Woman Not Neat.

Time was when neatness had a place in the training of young girls. Now it is left to take care of itself, with consequences which are unpleasant to the eye in the street and irritating to the temper in the home. Setting aside the question of taste, her best friend will hardly say that the Englishwoman is neat.—The Outlook.

### Suspicious.

Little Harry was troubled, and the lady who had called to inquire about his mamma asked what was the matter. "Well, you know," he replied, "I believe that foolish old stork that came here last night made a mistake. Is's red-headed, and Mrs. Williams, across the street, is the only one in this neighborhood with that kind of hair."

### The Kindly Word.

A kindly word is a little thing—a breath that goes and a sound that dies. But the heart that gives and the heart that hears may know that it sings and sings till at last it blends with the wild bird's song and the coo of babes in what men call the celestial choir.

They never gripe or sicken, but cleanse and strengthen the stomach, liver and bowels. This is the universal verdict of the many thousands who use DeWitt's Little Early Risers. These famous little pills relieve headache, constipation, biliousness, jaundice, torpid liver, sallow complexion, etc. Try Little Early Risers. — J. H. Swan.

### The Tempter and the Tempted.

From continental Europe comes the story of a burglar who left the following note pinned to the pillow in a mansion he had ransacked: "In the bible it says, 'Lead us not into temptation.' You and your show of wealth tempted me and I fell, though an honest working man. Therefore, you are the sinner, not I. Repent before it is too late."

Queen Elizabeth Fond of Perfumes. In the time of Elizabeth perfumes were very rich and numerous. Clivet, a scent taken from the civet cat, and musk are often mentioned in the literature of that time. Perfumed gloves were in vogue then, and the queen had her portrait scented with them. Even her shoes were made of leather steeped in scented oils, which permeated the skin.

Mothers can safely give **Foley's Honey and Tar** to their children for coughs and colds, for it contains no opiates or other poisons. Sold by J. H. Swan.

### Nelson Statue Is Decaying.

The Nelson statue in Trafalgar square, London, is already decaying. It is found that the only stone that resists, but perhaps the only one who is Portland limestone of which St. Paul's cathedral is built.

### A Dangerous Proposition.

"It does not follow that a safe opening is necessarily a secure sort of business," muttered the burglar as he began his drilling, "especially as one has to do so much blowing about it."—Baltimore American.

### Frightfully Burned.

Chas. W. Moore, a machinist of Ford City, Pa., had his hand frightfully burned in an electrical furnace. He applied Bucklen's Arnica Salve with the usual result "a quick and perfect cure." Greatest healer on earth for burns, wounds, sores, eczema and piles. 25c at J. H. Swan, druggist.

### Knew the Symptoms.

A doctor prescribed rest and change for a small girl, saying that her system was quite upset. After he had seen the little girl said: "I know I was upset, mamma, because my foot's asleep; and things must be pretty bad when you go to sleep at the wrong end."

### Comfort for Achilles.

Achilles was bemoaning his vulnerable heel. "That's nothing," they assured him, "suppose the faculty had dropped you from the eleven for poor scholarship." Herewith he realized the danger of death was a mere trifle. —New York Sun.

### The Yellow Fever Germ

has recently been discovered. It bears a close resemblance to the malaria germ. To free the system from disease germs, the most effective remedy is Dr. King's New Life Pills. Guaranteed to cure all diseases due to malaria poison and constipation. 25c. at J. H. Swan's drug store.

### Guards Drill on Boulevard.

In Van Ness avenue, San Francisco, a long avenue, 12 feet wide, asphalted and without car tracks, the city has placed an extra number of electric lights, so as to make it better for the night drills of the National Guards.

### Defined.

Credit is money, and what is money? While on a street car I heard a man tell another man this about a young fellow who had some money: "He has money, but he does not know what money is—money is a lever." —Orville Sisson.

## Ayer's

For coughs, colds, bronchitis, asthma, weak throats, weak lungs, consumption, take Ayer's Cherry Pectoral.

## Cherry Pectoral

—Miss J. K. Nonnness, Waltham, Mass.  
25c, 50c, \$1.00. All druggists.

## The Lungs

Daily action of the bowels is necessary. Aid nature with Ayer's Pills.

## DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty cent and dollar sizes are sold by all good druggists.

Don't make any mistake, but remember the name, Swamp-Root. Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

### Luckiest Man in Arkansas.

"I'm the luckiest man in Arkansas," writes A. L. Stanley, of Bruno, "since the restoration of my wife's health after five years of continuous coughing and bleeding from the lungs; and I owe my good fortune to the world's greatest medicine, Dr. King's New Discovery for Consumption, which I know from experience will cure consumption if taken in time. My wife improved with first bottle and twelve bottles completed the cure." Cures the worst coughs and colds or money refunded. At J. H. Swan's, druggist. 50c and \$1.00. Trial bottle free.

### Removing Old Wall Paper.

Hygienists insist that old wall paper should be removed before the new is hung. This is something more easily said than done, says the Brooklyn Times. The best way to remove it is to wet it with hot water using a large whitewash brush. One wetting is not sufficient, but the surface must be gone over several times. Wet quite a large area, then come back and go over it again, and yet again, until the paper comes off easily.

Turned from World to Philanthropy. Lady St. Heller, since the death of her husband, Sir Francis Jenner, the famous divorcee judge, has led a retired life. Once one of the greatest of society leaders, she now spends her time in charitable and philanthropic work.

A man who once had rough horny hands made them soft and smooth with Witch Hazel Salve, but he used the genuine—that bearing the name "E. C. DeWitt & Co. Chicago." For sores, boils, cuts, burns, bruises etc., it has no equal, and affords almost immediate relief from blind, bleeding, itching and protruding piles. Sold by J. H. Swan.

First Apples Brought to America. John Winthrop is usually held responsible for the introduction of the apple into the New World. But as a matter of fact when Winthrop anchored off Cape Ann the reclusive Blackstone already had apple trees growing about his cabin at Shawmut Neck. Some of the best of our American apples were brought over by the Huguenots, who settled in Flushing, L. I., in 1660, and planted there, among others, the pomme royale or spice apple.

Sanatoriums for Children. Sixty thousand children have been treated since 1887 in the 15 sanatoriums on the coast of France for the cure of delicate, strumous or rachitic children, the object of such sanatoriums being the prevention of tuberculosis.

The New Cough Syrup—the one that acts as a mild cathartic on the bowels—is Kennedy's Laxative Honey and Tar. It expels all colds from the system, cuts the phlegm out of the throat, strengthens the mucous membranes of the bronchial tubes and relieves croup, whooping cough, etc. Children love it. Sold by J. H. Swan.

Queen's Betrothal Kiss. No more celebrated kiss was ever given than that bestowed on Nov. 22, 1881, in the gallery of Greenwhich palace, by Queen Elizabeth upon the Duc d'Alencon, one of the suitors for her hand, whom, in the presence of Walsingham and Leicester, she kissed upon his cheek and, placing her ring upon his finger, presented to her courtiers as their future master.

Camels Outdone. Other creatures than the camel are able to get along for extended periods without drinking. Sheep in the southwestern deserts go for forty to sixty days in winter without drink grazing on the green, succulent vegetation of that season.

The most reliable preparation on the market for kidney trouble is Foley's Kidney Cure. Sold by J. H. Swan.

### WEEK'S NEWS RECORD

Leo Livingston and W. A. Sewell, salesmen, both of Baltimore, were found dead in a room in a Philadelphia boarding house. The gas was turned on. The men left letters saying they were out of work, had no money and had decided to commit suicide.

Gustave A. Conzmann, former cashier of the Vigo County National bank at Terre Haute, Ind., was sentenced to eight years in the federal prison at Fort Leavenworth, Kan., on his plea of guilty to embezzling the funds and falsifying the books of the bank.

Josephine Gargone, a 17-year-old Italian girl, was shot and killed at her home in Brooklyn by Cranelio Panoviso, 19 years old, who immediately afterward shot himself in the head. He was taken to the hospital as a prisoner, but refused to give any explanation of the affair.

The spectacle of an entire town turning out to fight rats will soon be witnessed at Cochocton, Ohio. The other day the Association of Cochocton Business Men divided into two bands, the line division being the main business street of the city, and for thirty days an old-fashioned rat hunt will be held.

In St. Louis "Jack the Ripper" made his first attack in daytime the other morning, Gertha Dude, a 13-year-old school girl, being his victim. The stabber escaped. The girl is the seventeenth person to be attacked by the unknown man. Like all the others, she was cut in the lower part of the body and was not wounded seriously.

The safe in the postoffice at New Richmond, Ohio, was blown open by robbers the other night and \$700 in stamps and money was taken. A previous attempt to rob the office was unsuccessful. The robbers also visited the postoffice at Ramsey, Ohio, and at Anchorage, Ky. They escaped in a stolen buggy, which was recovered near Cincinnati.

At least six persons lost their lives in a fire which partly destroyed the Richardson hotel, one of the leading public houses in Lowell, Mass. The fire started a few minutes before 2 o'clock and the flames rapidly communicated to various parts of the structure. A large number of guests were in the hotel and those who were in the upper part of the building had little chance to escape by the stairways. The firemen found the dead bodies of six women in the top floor of the hotel.

Burke S. Hall, a young man 26 years old, son of the late District Judge Charles E. Hall, was buried the other day in Lincoln, Neb. His ailment was pronounced consumption, but his friends declare his death was due directly to hazing received while in the United States military academy at West Point. When young Hall entered the academy he was a sturdy athlete. When he resigned on account of ill health he was almost a physical wreck. He never complained of the treatment received, but the truth came out when his condition became alarming.

Stanislaus Abrowski, a "trust" convict who escaped from the State prison in Michigan City, Ind., was returned to prison, having been captured six miles west of that city. He was chased out of a wood by guards who were close upon him and was caught by a party of farmers. For three days the man had been running aimlessly through the woods and fields and was almost exhausted. He had discarded coat, hat and shoes. His legs and feet were frightfully lacerated by his flight through brush and briars. Abrowski shows symptoms of insanity and is now in the prison hospital. He is a Polisher and is unable to speak English.

### KING CHRISTIAN DEAD.

Aged Ruler Passes Away Suddenly with Fear of His Family Near. King Christian IX. of Denmark died in Copenhagen Monday. The king apparently had been in his usual health and the end came suddenly, few of the members of his immediate family or of the court being present. Flags on the palace and public buildings were lowered to half-mast immediately on the news of the death and the capital went into deep mourning for the sovereign, who was universally beloved by his subjects.

King Christian IX. ascended the throne of Denmark, Nov. 15, 1863. He was born April 8, 1818, and was the fourth son of Duke William of Schleswig-Holstein-Sonderburg-Glücksburg.

As the male line of the house of Oldenburg, which had occupied the Danish throne since 1448, was approaching extinction in the person of Frederick VII., the great powers by a treaty signed May 8, 1852, guaranteed

KING CHRISTIAN.

the succession to Prince Christian, by right of his wife, who was a niece of King Christian VIII. This treaty was ratified by the Danish Diet, and accordingly Christian became king on the death of Frederick in 1893.

King Christian was connected with most of the royal houses of Europe. His daughter Alexandra is queen of Greece, another daughter is dowager empress of Russia, and a grandson, Prince Charles, was recently elected King of Norway.

The heir to the throne is Crown Prince Frederick, who was born June 3, 1893. The eldest son of Denmark's future king is now King Haakon VII. of Norway.

### THE GIFTS OF MISS ALICE.

Will Surpass Any Collection Ever Seen in This Country.

According to a Washington correspondent, the gifts which Miss Roosevelt will receive for her bridal display will be many and costly. These will include presents from the czar, the Mikado, the Empress of China, the Kaiser, the King and Queen of England, the Sultan, and possibly the King and Queen of Italy. Nearly all royal gifts take the form of jewelry, lace or silk, all of which are among the highly rated articles when it comes to paying duty. However, if gifts are sent to the legations there is no duty, and the presentations can be made by the envoys and ambassadors in person.

Miss Roosevelt's gifts will surpass any collection ever gathered in this country. Invitations have gone abroad to every ruler who has a representative in this country or to whom this country sends an envoy. There are 39 nations holding friendly relations with the United States, and this does not cover all to whom representatives are sent.

News of the marriage has awakened great interest abroad. The Roman pontiff, who admires the vigorous American President so greatly that he is having all his works translated into Italian, has instructed his delegate in Washington, Mgr. Diomede Falconi, to ask if the distinguished pair will accept a gift of music, designed in the royal institution in the Vatican. This gift is meant to compliment Mr. Longworth, as well as Miss Roosevelt. He is the nephew of Mrs. Bellamy Storer, wife of the ambassador at Vienna, whom the pontiff knows well and admires exceedingly.

The Sultan of Turkey is another who is deeply engrossed in the preparations for the nuptials. His gift, according to those who know his traditions, is sure to be a priceless gem—a diamond, ruby, emerald or sapphire.

### GREAT SHIP ON ROCKS

STEAMER VALENCIA AT MERCY OF PACIFIC STORM.

Reef Off Vancouver Island, Long Drenched by Mariners, Is Obstruction Upon Which Vessel Is Dashed—Many Reported Lost.

The steamer Valencia of the Pacific Coast Steamship Company's fleet on the San Francisco-Puget Sound route, with ninety-nine passengers and a crew of fifty on board, went ashore on the rocks at the base of a precipitous cliff on the most inaccessible section of the Vancouver Island coast. The Valencia drove on to the rocks during a dense fog while trying to make the entrance of Juan de Fuca strait early Tuesday.

Although only the most meager information of the wreck was obtainable up to a late hour, it is known that several lives were lost in attempts to reach the shore. Exactly how many perished in this way and in the first confusion attending the wreck is not definitely known.

The Valencia sailed from San Francisco Saturday evening and carried upward of 100 passengers and sailors. At noon Tuesday she was to have tied to her pier in Seattle harbor. Instead, bits of her wreckage were being dashed wildly against the cliffs and the sands of the beach of Vancouver Island.

Of those on board when the vessel went down, only nine are known to have got to land and safety. These were picked up by Indians on the west coast of Vancouver, near a fishing village known as Carmanah. It is learned from these that the Valencia struck the rocks near Beale Point. In an instant she was sinking. Out of the blackness of the waters arose a false light which beckoned her to death. She dashed upon the reef with-out warning. And like a shell, she was ground into fragments. Those who escaped did so clinging to particles of the wreckage.

The accident happened when half the passengers were in their state-rooms. Some were undressed. None was prepared to take to the bellowing waves. In the west the clouds

STEAMSHIP VALENCIA.

were lack. Far over the mountain tops to the east fell the gray streaks of approaching dawn. The survivors report incidents of the most harrowing character.

Crash Comes Without Warning.

When the boat crashed upon the hidden reefs a gale was blowing. Huge waves were being dashed over deck and bridge. But now that making port was but a matter of a little while the officers were not alarmed. In an instant came the grinding noise—the noise of a monster boat going rapidly by wind and steam; striking at full speed one of the great, heavy rocks.

And then out of cabin and saloon there arose the frantic screams of despair. No one had warning. The first the passengers felt was the crash. Then followed the sweep of the sea. Now came the quick plunge to escape the sinking craft. Some went down with it. Some plunged headlong against the concealed rocks, to be dashed to instant death. Others were picked up by the waves and carried to open waters. There a few held fast to floating timbers, and these, blown by the gale driving madly from the west, were brought to safety. How many thus were rescued is not known.

The Valencia was owned by the Pacific Coast Steamship Company and was being used as an extra boat in the California and Alaska trade. After the recent accident to the steamer City of Pueblo she was placed in the Seattle-San Francisco trade in connection with her sister ships, the Umatilla and the Queen. Last summer the Valencia was on the Nome run and was one of the best known vessels on the coast. She has brought to Seattle millions of gold and thousands of fortune-telling miners.

The scene of the wreck is 120 miles north of Vancouver and near a barren coast.

A run on the Washington National bank of Pittsburgh started when it became known that Cashier S. C. Armstrong had disappeared Jan. 2. It is rumored Armstrong has taken \$50,000 to \$100,000 of the funds of the bank with him, but this is denied by President Reilly. The run was checked.

The National Board of Trade, in session in Washington, admitted to membership a society of Bridgeport, Conn., organized to resist the tide of socialism declared to be sweeping over this country.

### FRANCE AND VENEZUELA.

Cause of the Present Rupture Between the Two Governments.

The rupture between France and Venezuela has resulted immediately from the latter's refusal to recognize the French diplomatic representative. France persuaded President Castro to withdraw his offensive note, but could not induce him to deal with M. Talgny, the French chargé d'affaires, although declaring that the official act which made him obnoxious, was exactly in accordance with directions from the French foreign office. France assumed all responsibility in the matter, but this was not sufficient to satisfy President Castro, who appears to have taken a personal dislike to M. Talgny.

Of course, the original cause of the strained relations between France and Venezuela was the alleged failure of the French Cable Company to live up to its franchise obligations, and this alleged failure appears to have appealed all the more urgently to President Castro, because of the Cable Company's assistance to revolutionists whom President Castro at the time was engaged in suppressing. Indeed, the Cable Company was charged by President Castro with supplying the revolutionists both information and money, and whether this is true or not, it served as an excellent pretext for giving the Cable Company's failures in other directions immediate attention. The French government entered protest, President Castro answered smartly and it was in the ensuing controversy that M. Talgny incurred President Castro's disfavor.

France has a large fleet in the immediate vicinity of Venezuela, and will probably use it, if it shall fail to adjust matters through the agency of the American minister who now represents the French foreign office. But whether or not France employs force in compelling Castro to behave decently, it is a foregone conclusion that Venezuela will receive little, if any, encouragement from this country. It is not impossible that France may be even joined by the United States in her efforts to compel respect for foreign interests.

### RURAL MAIL CARRIERS.

There Are 34,000 Now Doing Service for Uncle Sam.

The number of rural mail carriers now in the service of the United States

WHERE THE WRECK OCCURRED.

is 34,000, of whom 250 are women. On account of the rigorous nature of the duties women are not appointed except in cases where no men applicants are found upon the eligible registers. As a general proposition, however, the supervisors testify unanimously that women have shown themselves to be just as capable and efficient as men.

There are women carriers in 30 States and one territory. Iowa has 34, the largest number; Illinois 28, Michigan 19, Indiana 14, Kansas 13, Missouri 11, and other States smaller numbers.

The morale of the rural carriers is remarkably good, and always has been. Out of 34,000 employees, only 214 were discharged for cause last year, of whom only 26 were dishonest and 30 had violated instructions or the regulations of the service. It is doubtful whether any other organization, either public or private, can show so good a record. At the same time there have been numerous instances where the greatest heroism and nerve have been exhibited, and an extraordinary devotion to duty during storms, washouts, floods and blizzards, when the carriers continued their service regardless of danger and suffering. The rules of the department do not make any allowance for the weather. The regulations require every carrier to start at a certain hour and maintain a regular schedule and arrive at given points at approximately the same moment day after day; and they are required to cover a prescribed distance, and make their circuit without deviating therefrom under any circumstances, sick or well, storm or sunshine, and they do it. The number of complaints is very small and the cases requiring discipline are very few.

Engineers and firemen on the Pennsylvania and Baltimore and Ohio railroads are agitating for increased pay.

Senator Warner of Missouri characterized as "supremely ridiculous" his boom for the Republican nomination for President launched by Representative Bartholdt. He says he does not take it seriously himself, nor did he believe anyone else does.

William I. Buchanan has been selected by the President as one of the delegates to the pan-American congress in Rio de Janeiro next July. Mr. Buchanan was a delegate to the second congress, which met in Mexico five years ago.

Charges against James W. Raynolds, renominated by the President as secretary for New Mexico, are being considered by the Senate committee on territories, and the confirmation will be held up until they can be investigated. He is charged with being an offensive partisan.

## CONGRESS

In the Senate Tuesday Mr. Spooner defended the course of President Roosevelt in appointing delegates to the Moroccan conference and in relation to Santo Domingo. Messrs. Tillman and Culberson also spoke, insisting that in the Dominican affair the executive had usurped the powers of the Senate.

In the House the urgent deficiency appropriation bill was under consideration. An amendment abrogating the eight-hour day for work on the Panama canal was defeated, and another, providing that canal commissioners may not receive additional compensation besides their salaries, was passed. The item of \$2,015 to reimburse the Department of Justice for an oil portrait of former Attorney General Knox met defeat. A bill creating a new land district in Montana, to accommodate settlers in the Great Crow reservation, which will be opened for settlement in August, was passed.

In the Senate Wednesday Mr. Lodge defended the course of the President with regard to the affairs of Santo Domingo and the Moroccan conference and Mr. Teller spoke in support of the Senate's prerogative in treaty making. At 3 p. m. an executive session lasting fifteen minutes was had and then the private pension calendar was taken up. The forces opposed to the joint statehood bill, consisting of the Democrats and the Republican insurgents, met their first defeat in the House when a motion ordering the previous question on the adoption of the rule for debate prepared by the Republicans was passed by a vote of 102 to 105. Several members had left the chamber when the vote on the rule itself was taken, the result being 187 to 157. Mr. Crumpacker of Indiana took the chair and debate on the bill in committee of the whole was begun at once. After passing a bill to create jury commissioners in Oklahoma the House at 5:25 p. m. adjourned.

A discussion of foreign affairs occupied the session of the Senate Thursday, Messrs. Money and Heyburn speaking. The consular reorganization bill was read at length, but was not acted upon. At 4:15 p. m. the Senate went into executive session and at 4:25 adjourned until Monday. The House passed the statehood bill by a vote of 104 to 160, according to the schedule. Only thirty-three insurgents went on record against the measure. The resignation of Claude A. Swann, recently elected Governor of Virginia, was presented to the House.

The first attempt at filibustering at this session took place in the House Friday in a Democratic endeavor to defeat the provision of the urgent deficiency bill waiving the eight-hour day for foreign laborers on the Panama canal. The amendment was placed in the bill after much maneuvering. Secretary Wilson came up for censure because of his request that more funds be given the Department of Agriculture for meat inspection. The Senate was not in session.

The House Saturday passed the urgent deficiency appropriation bill, with the amendment waiving the eight-hour day for alien labor on the Panama canal. The vote on the amendment was 120 to 109. By special order the pension calendar was cleared, 262 bills being disposed of in sixty-five minutes. After reading Mr. Mann's omnibus bridge bill, making it unfinished business for Monday, the House adjourned. There was no session of the Senate.

The House Monday passed a resolution calling on the President to furnish information as to the existence of an alleged agreement in violation of the interstate commerce law between the Pennsylvania, Baltimore and Ohio, Norfolk and Western, Chesapeake and Ohio, Northern Central and Philadelphia, Baltimore and Washington Railroad companies. Unanimous consent was given to begin on Tuesday the consideration of the Heuburn railroad rate bill and to continue the same until the bill shall be disposed of. A tribute to the memory of Gen. Joseph Wheeler was paid by naming a street in the capital "Wheeler street." The Mann general bridge bill was passed with several perfecting amendments. It provides general provisions to be complied with hereafter in the construction of bridges across navigable streams. The Chinese boycott and the administration of the forest reserve divided the attention of the Senate. Mr. Tillman offered a resolution directing an investigation of Chinese affairs and Mr. Heyburn sharply criticized the methods of the forestry bureau. The House statehood bill was reported favorably, and notice was given that there would be a majority report.

### National Capital Notes.

President Roosevelt plans to go tiger hunting in Africa when he retires from the presidency in 1909.

Among the nominations sent to the Senate was that of Capt. William S. Cowles, the President's brother-in-law, to be chief of the bureau of equipment of the Navy Department.

The Secretary of the Interior has withdrawn from all forms of disposals except under the mineral laws, 1,300,000 acres of public lands lying in Missouri and Flat Head counties, Montana, and Kootenai county, Idaho, for the proposed cabinet forests reserve.

Surgeon Major Leola Livingston Senman is pushing vigorously his crusade to bring about a reform of the medical department of the United States army, after studying the sanitary conditions in the Boer war and being present in Pekin during the Boxer troubles.

William I. Buchanan has been selected by the President as one of the delegates to the pan-American congress in Rio de Janeiro next July. Mr. Buchanan was a delegate to the second congress, which met in Mexico five years ago.

Charges against James W. Raynolds, renominated by the President as secretary for New Mexico, are being considered by the Senate committee on territories, and the confirmation will be held up until they can be investigated. He is charged with being an offensive partisan.

## COMMERCIAL AND FINANCIAL

**Chicago.** The commercial position maintains exceptional strength. More seasonable weather brought a good demand for winter apparel and household needs and retail trade generally experienced a sharp reduction of stocks which hitherto moved slowly owing to comparatively mild temperature. Construction work is impeded but slightly, nor has there been interruption of all kinds of building material. Manufacturing moves forward very steadily, with the outlook for the year most encouraging.

Rail capacity is now engaged ahead for fifteen months, while new commitments draw more extensively on structural shapes, plates and rolling stock. Pig iron exhibits a firmer tone in quotations, bookings being equally plentiful for both current wants and forward delivery, indicating that melters are well provided with work.

Factory operations disclose more activity in implements, heavy hardware and electric output, and there is a fair request for heavy machinery, automobiles and vehicles. In the leather working lines most activity appears in shoe and booting factories, but orders increase for saddlery, trunks and specialties.

Distributive branches of general merchandise report satisfactory conditions. Mail orders for spring delivery come forward in good volume for the principal staples. Interior merchants are buying confidently, many requiring early shipments, and house sales are stimulated by increasing numbers of visiting buyers. Movements of commodities, as reflected by railroad returns, show no diminution. Bank clearings, \$222,920,507, exceed those of corresponding week in 1903 by 12.4 per cent. Deposits are recovering, money is easier in tone, and on more bidding for commercial paper the discount rate ruled at 5 1/2 per cent.

Failures reported in Chicago district number twenty-five, against thirty-two last week and thirty-one a year ago.—Dun's Review of Trade.

**New York.** Mild weather continues a source of complaint by affecting retail trade collections and some reorder business from wholesalers, but compensation are found in continued activity in outdoor inquiry, practically unchecked building operations, better than ordinary midwinter

portation and unimpaired lines, and manufacturing lines, and iron and steel. Spring trade continues as favorable as last year, there is considerable inquiry for earlier around, shipment on opening earlier than ordinary goods, misale operations in dry goods, shoes and kindred lines. But shoes and kindred lines were at present in materials were at stage of the active before at this

# MARION'S BRIGADE

By MAJOR J. H. ROBINSON

## CHAPTER II.—(Continued.)

Perhaps we cannot show to better advantage the particular position of affairs at the Tory camp than by giving the substance of a conversation that occurred at that time between the major and Col. Cunningham, an officer who afterward commanded a body of Tories distinguished by the not very pleasing name of the "Bloody Scouts," which title was bestowed upon them on account of their unparalleled barbarities. "I have given orders not to have Strickland's house plundered," said Gaiety to Cunningham. "On account of the pretty Ruth, no doubt!" said the latter. "Of course. I have just been up there. The little beauty is as proud as a queen, and cold as an iceberg. She said that if I had come for the purpose of plunder, the sooner I accomplished the business and left the premises the more agreeable it would be to her and the rest of the family. I told her I had come to offer my friendly aid and protection; to which she answered that neither herself nor friends desired the friendship of a man who had committed so many enormities. Her mother came to the rescue—a very fine-looking, but a very impertinent, woman. She assured me that South Carolina was not yet conquered, and though we might triumph for a time, our overthrow ultimately was certain. As for my protection, she cared nothing about it, being willing to suffer the same hardships that her neighbors did, for the cause of liberty. I was provoked, but governed my temper as well as I could, resolving to have a sweet revenge."

"There's a great deal of spite in these Whig women," observed Cunningham. "They are worse than the men," replied Gaiety. "Although they do not hold the sword with their own hands, they stimulate their lovers, husbands and sons to greater exertion and thus up the spirit of rebellion alive throughout the country."

"No one has a better opportunity than you of knowing that fact," answered Cunningham. "I consider it about as full to make war upon them as upon husbands and lovers. As a general, I am inclined to show them but mercy. I am in favor of extermination. Let the sword, the halberd and their work without a two nice red to the particular circumstances of a particular case. We must terrify the promptness and severity of our punishments. While I was out yesterday with some of our fellows collecting men and levying contributions, I saw a wicked old fellow dwelling in a wretched hut on the banks of the river, about two miles above here. He had a wife and three children, and a rank rebel. We entered the yard and made a search, but we found nothing. He was just about to escape, but we caught him. We collected his property, and then we hung him. His great saber hung at his side, and his demeanor was characterized by the same tranquility that distinguished him from the first. Ben Rowan appeared rather surly, and occasionally cast threatening glances at Job. "Now comes the rub of this game," he said to the latter; "and it won't be exactly wholesome for you to show your back to the enemy. If you play us any of your Quaker tricks, I will send something after you that will bring you to your bearings of a sudden."

"If this enemy smite thee on one cheek, turn to him the other also," said Dawson. "You're a humbug," retorted Rowan. "Be silent!" said Capt. Logan. "Wonder are the camp fires of the Tories. Softly, men—softly! Hold on to your weapons; don't let them jingle too much. Be ready to charge when the General gives the word. Try and do your best. Give those heavy downward cuts that save a surgeon further trouble."

"Halt!" said Marion, in a low voice. "Mr. Forstall," he added, "go forward, cautiously, and reconnoiter a little. Be prudent and don't keep us waiting long." Forstall threw his bridle rein to Ben Rowan, dismounted and proceeded to obey orders. He advanced silently about three hundred yards, when the Tory encampment appeared in full view. It was now near daylight, and some of the enemy were already astir. In one place a group were sitting upon the earth, conversing in low tones. A half-dozen were stretched out at full length upon the ground beside a smoldering fire. In another place two or three were standing, and as many more reclining. Others were preparing to cook breakfast. The sentinels had neglected their duty; one was asleep on his post and another was talking with some of the men. In the rear of the encampment Forstall saw a few early risers looking after their horses and rubbing them down.

Our hero hastened back, relating what he had seen and received the thanks of the general for his services. Preparations were instantly made to charge into the Tory camp. At this crisis the accidental discharge of a pistol produced a sudden tumult in the enemy's quarters. Before a minute had elapsed many of the Tories were in the saddle, and the voice of Gaiety was heard calling on them to make a bold stand and acquit themselves like men.

"Charge, my brave fellows, and be merciful to those who ask quarter!" cried Marion.

"Come on!" exclaimed Ben Rowan, darting a threatening look at Job Dawson. "Lay hold of your war scythe and keep your face in the right direction; none of the white feather here."

Forstall glanced at Job. He saw that he was still calm and placid, as usual; but the large horse which he bestrode was rearing and plunging and clamping the steel bit as if animated and maddened with the spirit of battle. The brigade bore down like a resistless avalanche upon the foe. A discharge of pistols and carbines did not stagger them

or do any mischief, and in an instant the sabers of the dragons were doing fearful work.

Forstall resolved to keep his eyes on poor Job Dawson. Our hero felt quite sure that were he ever so much disposed to fight, he would not wield the extraordinary weapon with which he had provided himself. Notwithstanding all the excitement of battle, he reproached himself that he had not interfered to prevent Rowan from forcing him into danger.

But it was now too late to indulge in regrets—and Job for a moment was shut from his sight by a cloud of smoke. Forstall had now enough to occupy his attention, and as he laid about him with strength and ardor, he had no time to look after his Quaker friend.

The Tories fell back and made another stand, encouraged by their comrades who had turned out and rallied in the rear. At that juncture Forstall saw Ben Rowan in a most critical condition. He had, in his impetuosity, advanced beyond his division and was surrounded by the enemy.

Forstall pressed the spurs into his horse's sides and endeavored to reach his friend, but the Tories had rallied, and he now found himself in as exposed and dangerous a position—and he gave Ben Rowan up for lost. Glancing toward him a second time he saw Job Dawson's mammoth horse plunging forward with irresistible fury, bearing down all in his way, until he was half his length in advance of Rowan.

But what surprised our hero most of all was to see Job Dawson grasp his tremendous saber and swing it in the air as though it was but a plaything. Forstall held his breath with astonishment and expectation. He saw the ponderous weapon descend with terrible velocity, sweeping two of Ben's adversaries from their saddles. Making no pause, he dashed on and was soon obscured from view by a cloud of smoke; but Forstall plainly heard the ringing of his saber as it met with opposing weapon.

In a short time the shout of victory was heard from Marion's brigade. The Tories threw down their arms and begged for quarter. Those who were not slain were made prisoners.

Forstall had singled out Major Gaiety, fully resolved to punish him for his impetuosity to the fair Ruth Strickland; but he had not been able during the brief contest to cross swords with him, although he had the satisfaction of seeing him captured by Col. Horry. After the prisoners were secured, Job Dawson was discovered sitting by one of the Tory fires, very thoughtful, yet very placid.

Young Adair, who had been made a prisoner by Cunningham, was at liberty, and was making his way to the Quaker; and the latter's horse stood beside his master, as quiet, apparently, as he was.

"Verily, I hate contention," said Dawson.

"You have done yourself immortal honor!" exclaimed Rowan, running up to him and grasping his hand.

"I don't understand thee, good Benjamin," replied Dawson, gently disengaging his hand.

"You fought like Samson among the Philistines," said Ben.

"That art another friend. I cannot fight with carnal weapons. Verily I am not a man of war," added Dawson.

"Do you mean to say that you didn't fight?" asked Ben Rowan, impatiently.

"I do," said Job.

"And that you didn't save my life?" continued Ben, with increasing emphasis.

"Even so," replied Dawson.

"Look at your saber," said Forstall.

"Truly there is blood upon this utensil of war," he remarked.

"And the question is, how did it come there?" resumed Ben.

"I cannot tell, verily," said Job, gravely.

"Come, none of that humbug stuff, because I won't hear it. You did fight, and saved me from being cut fine enough for mince pies; and if you don't own up to it, I'll pulverize you as soon as the general's back is turned—confound me if I don't."

Forstall turned from this scene with a smile, and with a singular feeling of uncertainty in regard to the true character of Job Dawson.

The boarding-house mistress looked at her latest "guest" with a firm but cheerful expression of countenance, and allowed the faintest hint of a smile to play over her features.

"Oh, no, I never have any trouble with my boarders," she said, briskly. "I don't see any need of nagging 'em if they don't do just as they would in their own homes, and as they'd like to be done by; but I generally let them see in some way when I don't approve of their doings."

"For instance, there was Mr. Cranston, one of my table-boarders, a real well-meaning young man, but pretty careless. He sits down at the end of the table near those little shelves where I keep my extra china, and he got in a hurry and laying his hat right on top of the plates."

"Well, it didn't look just right, but I didn't nag him about it. When he'd done it half a dozen times I just put a sheet of sticky fly-paper in on top of those plates."

"He never said anything about it, for he knew what I meant after that night. That's why I say if folks will use tact they've no need to have any trouble with boarders—not a bit!"

## INTERPRETS PRIMARY LAW.

Attorney General Stead Gives Opinion as Applied to Cities.

Under the theory that the new Illinois primary election law is intended to regulate and govern political parties, Attorney General Stead, in an interpretation of its applicability to cities, villages and incorporated towns having a population in excess of 1,000, expresses the opinion that the law does not apply to nominations in municipalities where party lines are not drawn at city elections. As originally drawn the bill provided only for primary elections in counties, and a study of the act reveals that, as applied to cities, it has not been wholly harmonized, although, the Attorney General says, the general intention of the Legislature is evident. Accordingly, it is held, where nominations are made for village officers in a village which is not divided into wards, there would be only one polling place. Then the judges appointed for county elections would not act as judges in city elections, but the regularly constituted city and village judges would act as primary election judges in such cities and villages. A primary for a city or village, following the analogy, would be called by the city committee. The judges would keep the same number of registry poll books and tally sheets as are kept by the judges of primary elections in counties. The clerk must exercise his own judgment as to the method of making public announcement of the color of the ballots.

## BARB WIRE INVENTOR IS 63.

Joseph F. Glidden of De Kalb Reaches an Advanced Age.

Joseph F. Glidden, who celebrated his ninety-third birthday in De Kalb the other day, has been one of the most prominent figures in the history of the De Kalb county for sixty years. He is the inventor of barb wire, from which he has amassed a handsome fortune, as did many others who were associated with him in that enterprise. For many years all persons engaged in the manufacture of barb wire paid royalty on the Glidden patent. Mr. Glidden was born in New Hampshire in 1813. He voted for Andrew Jackson for President in November, 1832, although he was not of legal age until the following January. For thirty years he was a farmer and incidentally a hotel keeper. He is in good health and in possession of all his faculties.

## FIRE DESTROYS CITY HALL.

Damage Done in Quincy Blaze Will Reach \$200,000.

Fire which started in the lively stable of Fred E. Harst destroyed the huge plant of the J. B. Schoo Saddlery Company, consisting of five brick buildings, ranging from three to five stories in height, in Quincy. Flames spread across the street and almost completely destroyed the city hall, a handsome building four stories in height. The wholesale house of the Aldo Sommer Drug Company was badly damaged by fire and water. Several persons were slightly injured by the falling walls of the Schoo building. Eight horses were burned in the Harst stables. The total loss exceeds \$200,000. Insurance is nearly equal. The city records were in the vaults and are believed to be preserved in reasonable condition.

## AGED ARMY NURSE DIES.

"Aunt Lizzie" Aiken Well Known to Civil War Veterans.

Mrs. Eliza Aiken, a well-known army nurse during the War of the Rebellion, died suddenly the other day at her house in Chicago, 80 years old.

She was for years an active worker in the Second Baptist church. Mrs. Aiken, who was known by G. A. R. members as "Aunt Lizzie," was born in Auburn, N. Y. At the close of the war she was given a pension by special act of Congress, being one of the few nurses so cared for.

## WIFE TO PAY HUSBAND'S DEBTS.

Joliet Woman to Settle Claims of Victims of Supposed Forger.

Mrs. Robert B. Ward, wife of the general agent of the Equitable Life Assurance Society in Joliet, who disappeared the other day, and is charged by creditors with being a forger, is considering the advisability of calling a meeting of her husband's creditors to straighten out Ward's affairs. Although she is under no legal obligation to make good the amounts, it is believed she has determined to meet the claims and will devote her time henceforth to that end. Mrs. Ward has had considerable experience in the insurance business, and believes she can pay off all the obligations incurred by her husband.

## BOYS GET LIFE SENTENCES.

Youthful Footpads Charge Downhill to Cheap Dance Hall.

Peter Brady, Joseph Hase and Lawrence Roscoe, who were convicted in Chicago of robbery, were sentenced to imprisonment for life by Judge Barnes. As the defendants are minors, they were sent to Pontiac. Eight robberies in one night were charged against the trio, who found all the victims in the vicinity of Milwaukee avenue and Augusta street, but the largest amount of money secured by them was \$1.

Joe Wald, a paroled convict held in the Chester city holdover awaiting trial on a charge of burglary and larceny, made a daring escape the other night by setting fire to the interior woodwork and burning his way out. How he managed to escape suffocation long enough to confine the fire to one portion of his cell until it had burned the heavy woodwork sufficiently to secure his release is a mystery. Wald was sent to the penitentiary two years ago for burglary and larceny. He was released on parole recently.

## SKUNK SKINS ARE VALUABLE.

Illinois Trappers Make Good Money Killing Animals for Furs.

Despite the general opinion that most of the wild animals that inhabited the middle West a century ago have become extinct, as a result of the march of civilization, the contrary is true, and thousands of muskrats, skunks, raccoons, opossums, foxes and civet cats, with occasional minks and weasels are killed, and their pelts sold for sums that in the aggregate would be a great surprise to the public not in touch with the trapping trade. Not in years have the central Illinois trappers been so active as this year. Furs are universally worn this season and prices of all kinds have greatly advanced. As a result the profits of the trappers have increased and they find the business pays well. Reports from adjacent States are to the same effect. One firm in Muscatine pays \$3,000 each week for hides. There are many farms scattered over Illinois which do an equally large business and it is probably safe to say that during the present season trappers will be paid in Illinois alone the sum of \$100,000. The majority of the animals trapped in the middle West are the muskrats, which have the least attraction for the trapper, as the pelts bring only 12 to 15 cents, while skunks range from 50 cents to \$2.50, according to size and condition; raccoon, from 50 cents to \$1.75; opossum, from 25 to 75 cents; red foxes, from \$1 to \$5; civet cats bring only 25 cents. In Whitesides county there is a skunk farm where the animals are bred for their pelts, the owner clearing several thousand dollars a year.

## YOUTH SENTENCED FOR LIFE.

Judge Honore Fixes Precedent in Punishing Woman's Assault.

Severe punishment was inflicted by a jury in the criminal court in Chicago in a case where a woman had been assaulted. Herman Smith, colored, was sentenced to the penitentiary for life when found guilty of having viciously attacked Mrs. Helen N. Salkeld in a prairie near Harvey. The jury was out less than half an hour when the verdict was agreed upon and returned into court. The judge maintained that in spite of the fact that the accused was but 19 years old the gravity of the offense warranted him in sending the prisoner to the penitentiary for the remainder of his days instead of to Pontiac. In assuming the position that he had the right to sentence the defendant to the State's prison instead of to the reformatory Judge Honore is said to have established a precedent. The law reads that courts "may" sentence a defendant minor to the reformatory. Judge Honore held that the word "may" meant that the law provided that the courts should use their own discretion and to weigh the severity of the offense on which the accused should be convicted.

## ILLINOIS POSTMASTERS NAMED.

Braden, Rossville; Abraham L. Cox, Elizabeth; Jacob A. Bohrer, Bloomington; William F. Calhoun, Decatur; George N. Mason, Erie; William P. Slack, Carbondale; James A. White, Murphysboro.

## YOUTHS ARRESTED AS FIREBUGS

Property in Vicinity of Willow Springs Burned—Three Accused.

A band of alleged firebugs which for two weeks had caused a reign of terror in the village of Willow Springs and the surrounding country was arrested by the town marshal and a posse of citizens. The prisoners are three young men, said to be members of well-known families in the vicinity. When they learned that warrants had been issued for their arrest they fled from the town. A hot chase followed and the three finally were arrested in a barn five miles from the village. The prisoners are: Arthur Wood, 18 years old; Henry Wood, 16 years old; Claus Teason, 30 years old. A fourth suspect escaped and is being sought by the village marshal. The buildings burned included the school house and several barns and dwellings, nine structures in all.

## EXPLOSION IN BENTON MINE.

Terrific Crash Occurs When Only Two Men Are in Shaft.

A terrific explosion occurred at the Benton Coal Company's mine in Benton at a late hour the other night. No one was in the mine at the time but two shot-firers. One of them, Emmet E. Neal, received injuries from which he died later, and the other, J. E. McIntyre, narrowly escaped death. They happened to be near the air shaft in a secure nick in the wall, otherwise they would probably have been instantly killed. Although the mine is 640 feet deep, one of the cars was blown from the bottom of the shaft and lodged in the tangle of timber. John Outhouse, who was caving the fan on top of the ground, was blown thirty feet away. The damage to the mine will amount to \$10,000. It is believed.

## Arrested for Embezzlement.

Frank Jourdat, agent for the Schwarzschild & Sulzberger Packing Company, was arrested in Streator, charged with embezzling \$1,250 from the firm. He collected the money, it is alleged, and did not turn it in.

## 2=GREAT TWO DAYS SALE=2 ...ODDS and ENDS... SATURDAY and MONDAY, FEB. 3rd and 5th

This announcement should be received with joy by every woman in Lake county, and even the men folks should feel more than passing interest in an event which means such a saving to their families. *We state on Honor that Every Item listed here as Odds and Ends is offered at Less than Cost of Manufacture.* We further say most candidly that the closing out of the Odds and Ends listed here means a loss to us of several hundreds of dollars, but it is a loss we can afford for the reason that the balance of these various lines was sold at a profit, and every merchant must expect to have something left over. Unlike others, we do not propose to carry over these Odds and Ends, because we will need the room and do not believe in carrying over from one season to another. Therefore **WE TAKE OUR LOSS NOW AND GIVE YOU THE BENEFIT.**

If low prices will do the work we will not carry over one dollar's worth of our winter stock. If we carried it over until next season we would still have to sell it at a loss, and in the meantime we would be handicapped for room. Therefore, you help us now and secure these seasonable garments at less than the yard value of the goods in them. **We take the Loss Now, in order that we may Gain the Room** for our new spring stock, which will shortly be arriving in overwhelming quantities. This is a strong statement, but a straight fact. Again we say in all candor that the goods listed, with the exception of the new waists, are Odds and Ends. You may not find the size you want, but you will find something that you will want on which you can easily save several dollars. The Coats listed are offered at from \$1.00 to \$5.00 less than they cost us. Come and examine these goods, bring this ad. with you and convince yourself that this is really the greatest opportunity ever offered you.
